Dear colleague

In light of the recent spate of unrests, the coalition of UFFP, NHCPA, Hope4Health, has led to the formation of the Relief for Health Care Workers Forum which equitably represents the health sector and practitioners directly affected.

As a forum we will assist health care workers with:

1. Support in terms of equitable distribution of medication
2. Guidelines and support with both insurance and SASRIA claims
3. Support with restoration of billing infrastructure
4. Mental Health support
5. General support with practice re-establishment as needed

To streamline this process we have created an online registration process where affected practitioners can register their support needs and will further assist us in quantifying the overall damage suffered by health practitioners.

This can be accessed through the following link: <https://forms.gle/xKTJXysy3n74FEES6>

To those who have not been affected but wish to support our colleagues, we have created a dedicated funding platform that you can contribute to.
